Resident Tracking opens on July 1 of each new academic year. Complete Resident Tracking by Sept. 1.

1. To enter new first year residents, scroll to the bottom of the page. For each new resident fill in the requested information and be sure to select "Add" to the left of the submission.

2. To update the status for current residents, select “Edit” to the left of their name.

Once completed with the above steps; click the blue "Next Step" button to access the Residents Ratings page.

1. Enter your residents' performance rating for each resident.

2. Once complete, be sure to select the blue "Submit" button at the bottom of the page.

Your information will not be updated and residents will not receive an application link on Sept. 15 until you have clicked SUBMIT.

Program Directors and Coordinators will receive an automated email when an application has been submitted by a resident.

- The application must be reviewed, approved and the PD evaluation must be completed before ABPath can submit the application for final review/approval by the ABPath Credentials Committee.
- Please complete your review and/or approval of your residents' applications by Feb. 16.
