Happy 2021!
To say that 2020 was a year like no other is certainly an understatement. We began the year with board business as usual. Then in March our office staff began to work from home, going into the office on an as needed basis. We have had daily Zoom calls to keep the team connected. Our productivity has not lagged, and everyone is successfully completing their tasks. As the pandemic surged, we had to rapidly change plans for administering 2020 and 2021 primary and subspecialty exams. I will talk more about that in our 2020 Annual Report.

Here at the ABPath it seems that the greatest constant is continual change. This newsletter provides lots of great information and details, but to highlight a few for you:

We are so pleased that Dr. Gary Procop will be the new CEO beginning in 2022. I have known Gary since 2007 when we both served as Trustees of the ABPath. He is a visionary and will take our board to the next level in certification and Continuing Certification (CC).

Our ABPath CertLink program continues to receive high praise from our diplomates and beginning in 2021 will replace the 10-year CC exam. We thank the many volunteer item writers for helping make this program a successful and relevant assessment for our diplomates.

The ABPath made a seminal change to our certification requirements by reducing the autopsy requirement to 30, until such time as training programs become competency based. We also adopted a new Parental, Caregiver, and Extended Medical Leave policy to support our residents.

We welcomed the National Association of Medical Examiners as the 13th Cooperating Society of the ABPath and look forward to working with them, as with all our Cooperating Societies, in the years ahead.

Finally, we thank you, our diplomates who have made us so proud during this pandemic. You took on new challenges and brought the profile and importance of the pathologist and laboratory medicine to the forefront. Without testing there is no diagnosis, and we all know that everything in medicine begins with the right diagnosis. A special thanks to all our volunteers: our Trustees, TDAC members, Advisory Committee members, and CertLink item writers. We could not do what we do without your support.

We will be back to you with our 2020 Annual Report this summer. Take care and stay well.

Sincerely,

Rebecca L. Johnson, MD
Chief Executive Officer
The American Board of Pathology (ABPath) is pleased to announce the ABPath Executive Committee and Trustees for 2021.

**2021 Board of Trustees of the American Board of Pathology**

President ........................................Edward R. Ashwood, MD, Aurora, CO
Vice President and Treasurer ..........Jeffrey D. Goldstein, MD, Los Angeles, CA
Secretary ...........................................Ritu Nayar, MD, Chicago, IL
Immediate Past President ...............Steven H. Swerdlow, MD, Pittsburgh, PA

Congratulations to Constance M. Filling, EdD, Washington, DC (Public Member) who was re-elected to an additional term as a Trustee.

In addition to the officers, Trustees of the American Board of Pathology are:

- Kathleen G. Beavis, MD, Chicago, IL
- Susan A. Fuhrman, MD, Columbus, OH
- Mark Fung, MD, PhD, Burlington, VT
- Mohiedean Ghofrani, MD, MBA, Vancouver, WA
- Eric F. Glassy, MD, San Pedro, CA
- Karen L. Kaul, MD, PhD, Evanston, IL
- Barbara Sampson, MD, PhD, New York, NY

Dr. Rebecca Johnson is the Chief Executive Officer. She can be contacted at rljohnson@abpath.org.

ABPath extends our sincere appreciation to our Trustees for their continued support and dedication. As leaders in the profession of pathology, their guidance and willingness to serve are critical for the Board to fulfill its mission in serving the public and promoting excellence in the field of pathology.
The Trustees of the American Board of Pathology (ABPath) are pleased to announce the election of Dr. Mark K. Fung to serve on the Board of Trustees with a term beginning January 2021. He serves as Chairperson on ABPath’s Test Development & Advisory Committee for Blood Banking/Transfusion Medicine. Dr. Fung is certified by the American Board of Pathology in Clinical Pathology and Blood Banking/Transfusion Medicine and is participating in the Continuing Certification Program.

Dr. Fung is the Vice Chair for Population Health in the Department of Pathology and Laboratory Medicine at the University of Vermont, where he holds an appointment as Professor. He has held multiple leadership roles at the University of Vermont Medical Center and is active as a leader and mentor in several national and international professional societies.

Dr. Fung earned his B.A. in Biology from Wesleyan University. He received his M.D. degree and Ph.D. degree in Cellular and Molecular Pathology from the University of Alabama-Birmingham. He completed two years of residency in Anatomic and Clinical Pathology at Washington University in St. Louis before transferring to the University of Pittsburgh to complete his residency training and fellowship training in Blood Banking/Transfusion Medicine.

The ABPath’s Board of Trustees is made up of 12 board-certified pathologist members and one public member. Each member is highly esteemed and accomplished in their respective fields and/or subspecialty. Trustees are elected for 3-year terms and may serve up to four terms.
Dr. Goldstein Documents History of Pediatric Pathology Board Certification

ABPath Trustee Dr. Jeffrey D. Goldstein, along with Dr. David M. Parham, details the history of ABPath pediatric pathology board certification from its beginnings to the present in this journal article published in Pediatric and Developmental Pathology in January 2021. You may read and download the pdf version of the journal article on the ABPath website here:

A History of Board Certification in Pediatric Pathology on its 30th Anniversary.

Dr. Kathleen Beavis on Staying Connected

From the very beginning of the COVID-19 pandemic, board-certified physicians have been working on the front lines. The American Board of Medical Specialties (ABMS) took this opportunity to share the very important role pathologists play in these feature articles. Dr. Kathleen Beavis shares how pathologists have been leaders and unsung heroes of the global pandemic in “Staying Connected to Help the Nation’s COVID-19 Response.”

Dr. Gary Procop and Lab Response to COVID-19

Dr. Gary Procop discusses the important role of laboratory medicine during COVID-19. “While laboratory medicine professionals are often ‘forgotten’ when people discuss health care, this pandemic has placed them squarely at every single table for critical discussions about how to respond to this infection and provide the best patient care. Collaboration is the key to quality patient care,” commented Dr. Procop.

https://www.certificationmatters.org/about/on-the-covid-19-front-lines/kathleen-g-beavis-md/

https://www.certificationmatters.org/about/on-the-covid-19-front-lines/gary-w-procop-md-ms/?fbclid=IwAR1cDrN3TNl77e-5GiYz6C5tL4AjipI49h4MeosY1lfJ0uNg93oGBUSY8
Dr. Sampson on 60 Minutes, Notable in Healthcare

Chief Medical Examiner of New York City and ABPath Trustee, Dr. Barbara Sampson spoke about the overwhelming task of caring for the deceased due to COVID-19 on CBS’s 60 Minutes.

Dr. Barbara Sampson was also named in Crain’s New York’s list of “Notable in Healthcare 2020”

---

Dr. Kaul Awarded Pathologist’s Power List 2020

Dr. Karen L. Kaul was awarded The Pathologist’s Power List 2020 for Big Breakthroughs (read it here). She has been a consistent advocate for the laboratory community, both in the media and in her service to professional societies. Having overseen testing for COVID-19 since the start of the pandemic, Dr. Kaul has ensured that her institution has remained at the forefront throughout. “This difficult period has highlighted the tremendous value of a strong clinical laboratory to ensure good patient care,” she said.

---

Dr. Procop Receives President’s Award from ASCP

Dr. Gary Procop received the American Society for Clinical Pathology (ASCP) President’s Award at ASCP 2020.

---

Dr. Ashwood Receives President’s Award

Dr. Edward Ashwood received the President’s Award for Leadership at UCHealth University of Colorado.
We would like to introduce you to Mary Pyfrom, ABPath’s Primary Certification Coordinator. Many of you may have had the chance to speak with Mary; she is the one responsible for processing all primary certification applications. Mary also works closely with program directors and coordinators to capture and update residents’ information for board certification in the Resident Tracking and Management programs.

Mary came to the ABPath in October 1996 and was originally hired to process Voluntary Recertification Applications. One year later she became the Primary Certification Coordinator. Mary says she has learned so much over the years from amazing leadership at the Board including Dr. William Hartmann, Dr. Betsy Bennett, and, as she says, “the most amazing, Dr. Rebecca Johnson.”

“I love working at the board and love my job! My favorite thing is helping/talking to the residents, coordinators, and program directors. I look forward to attending the society national meetings to meet face-to-face those who I speak with on the phone and through email,” says Mary.

Before coming to ABPath, Mary worked at Moffitt Cancer Center for 10 years as the supervisor of medical records and worked with the Bone Marrow Transplant team physicians collecting patient data from the Bone Marrow Transplant unit.

Mary and her husband Kevin moved to Tampa, FL in 1983 from Palmyra, New York, a small-town in upstate New York. Outside of work Mary says her favorite thing is to spend time with her family. She has two grown daughters, Sara and Ricki, and says she is in awe of the great things they have accomplished. She is also the proud grandmother of a grand daughter, 2 grandsons and a new grandchild on the way! Mary is also an advocate for research for congenital heart defects (CHD), as her daughter and grandson have both been affected by CHD.

“ABPath is my second family. I have enjoyed watching the board evolve and change over the years and being a part of the continuous growth.”

Mary’s positive outlook and helpfulness to the candidates reflects the ABPath’s team desire to support physicians looking to achieve board certification in pathology.
Gary W. Procop, MD, Selected as New ABPath CEO
The Trustees of the American Board of Pathology (ABPath) are pleased to announce that Gary W. Procop, MD, MS has been selected as Chief Executive Officer of the ABPath beginning January 2022. In this role, Dr. Procop will oversee all aspects of the ABPath’s initial and continuing certification programs and guide the organization through its successful ongoing program improvements. Dr. Procop will succeed Dr. Rebecca L. Johnson as CEO after a transition period and upon her retirement on December 31, 2021. Read more here.

ABPath CEO, Rebecca L. Johnson, MD, Elected Secretary-Treasurer of the ABMS Board of Directors
The ABPath is proud to announce that the American Board of Medical Specialties (ABMS), the organization overseeing physician certification in the United States, elected ABPath CEO, Rebecca L. Johnson, MD, as Secretary-Treasurer to the ABMS Board of Directors. Dr. Johnson previously served ABMS on the Committee on Certification, Subcertification, Recertification, and Maintenance of Certification (COCERT) from 2005-2010, the Strategic Planning Committee from 2013-2015, the Executive Committee from 2014-2016, and chaired the Organizational Standards Task Force from 2016-2018. She currently serves on the ABMS Committee on Continuing Certification and Vision Commission Advancing Practice Task Force.

AMA Offers Auto-Reporting to ABPath
The American Medical Association (AMA)’s online education portal AMA Ed Hub™ offers physicians a centralized location for finding, earning, tracking and reporting continuing medical education (CME) and other education on a wide range of clinical and professional topics. The platform now allows physicians who are board-certified with the American Board of Pathology (ABPath) to have their credits automatically reported to ABPath. Read more here...
The American Board of Pathology’s 2020 Continuing Certification Program
ABPath CEO Dr. Rebecca Johnson provides the history of board certification and an update on the ABPath’s Continuing Certification program in this article published in Archives of Pathology and Laboratory Medicine, January 2021. This is a great resource for the pathology community about board certification!

https://doi.org/10.5858/arpa.2020-0385-RA

Reevaluation of the US Pathologist Workforce Size
ABPath collaborated on this JAMA Network article assessing the accuracy of current pathologist workforce estimates in the US by examining why divergency appears in different published resources.

Our Cooperating Societies
ABPath now has 13 Cooperating Societies that we collaborate with to identify and address issues of importance to the profession of pathology. This year we welcomed the National Association of Medical Examiners (NAME) as a Cooperating Society. Through these valuable relationships, our Cooperating Societies support diplomates in their life-long learning and improvement in practice, their participation in Continuing Certification, and documenting their participation in educational and quality assessment activities.

The ABPath would like to thank the APC/PRODS, ASCP, CAP, and USCAP for their support of ABPath exhibit booths at their annual meetings. This year the ABPath had the opportunity to connect virtually with our diplomates at ASCP 2020 and answer questions about board certification. We were excited to greet over 700 visitors to our virtual booth. We are looking forward to the upcoming USCAP 2021 virtual meeting and hope you will stop by our virtual booth!
The ABPath greatly appreciates the many volunteers who contribute their time and expertise in support of our mission and who promote excellence in the practice of pathology.

ABPath CertLink® (ABPCL) Item Writers
Our ABPCL Item Writers have been very busy sharing their expertise and writing questions (items) for the ABPath CertLink longitudinal assessment. Their contributions have helped to enrich and refine the program. We appreciate the hard work of all of those who have contributed items.

We would like to acknowledge the following ABPCL Item Writers for providing exceptional support to ABPCL by contributing ten or more items for ABPath CertLink since the platform’s inception. Thank you for being a part of our team!

Dr. Diana Agostini-Vulaj
Dr. Mary Berg
Dr. Brad Brimhall
Dr. Helen Cathro
Dr. Melkon DomBourian
Dr. Jennifer Findeis-Hosey
Dr. Evita Henderson-Jackson
Dr. Samer N. Khader
Dr. Peter Kragel
Dr. Abberly Lott Limbach

Dr. Kruti Maniar
Dr. Carlos Parra-Herran
Dr. Snehal Patel
Dr. Maria Cecilia Reyes
Dr. Oana Rosca
Dr. Stephen M. Smith
Dr. Saloni Walia
Dr. Sophia Yohe
Dr. Neda Zarrin-Khameh
2021 Test Development and Advisory Committees
Thank you to our dedicated volunteers on the TDACs and welcome to our newly appointed members for 2021! The TDACs are responsible for developing and reviewing the ABPath certification exam questions that assess a physician's knowledge, judgment, and skills in order to provide high-quality care to patients. Each committee is made up of recognized subject matter experts who are leaders in their field.

Continuing Certification (CC) Advisory Committee
The Continuing Certification (CC) Advisory Committee is made up of 13 volunteer diplomates with diverse backgrounds, specialties, and experience and is chaired by an ABPath Trustee. It is responsible for advising the ABPath Board of Trustees for continuous evaluation and improvement of Continuing Certification from a diplomate’s perspective. Each member serves three years on the Committee.

Resident and Fellow Advisory Committee
The ABPath Resident and Fellow Advisory Committee is made up of 11 Pathology Residents and Fellows with the purpose of providing feedback and suggestions for improvement to ABPath about the board certification process and ways to best support pathology residents and fellows in the certification process.

To view a list of all current ABPath committee members, go to this page on our website...
The National Association of Medical Examiners (NAME)  
a new ABPath Cooperating Society

The Trustees of the American Board of Pathology (ABPath) announced the National Association for Medical Examiners (NAME) as a new Cooperating Society of the ABPath. The addition of NAME was approved at the fall 2020 ABPath Board of Trustees meeting. NAME was founded in 1966 and currently has 1,700 members, including 700 forensic pathologists certified by the American Board of Pathology, medicolegal investigators, affiliates such as toxicologists, and administrators. The organization provides leadership and advocacy for best practices and excellence in forensic pathology and death investigation. Read more here...

Parental Caregiver and Extended Leave Policy

The American Board of Pathology (ABPath) recently announced a new Parental, Caregiver, and Extended Medical Leave Policy for residents. The new policy will offer trainees more flexibility, reduce stress, and increase autonomy in making life decisions, especially regarding family and parental leave, while still being able to meet board certification training requirements. This new policy will be effective July 1, 2021, and applies only to residents. Read more here...

Certification Requirements for Autopsies

The new certification requirement for autopsies is 30 cases, effective immediately. This change is an interim adjustment until the ABPath autopsy requirement can become competency-based with the use of Entrustable Professional Activities (EPAs). The ABPath recognizes that the pathology training curriculum has significantly expanded to include such areas as molecular pathology, informatics, and laboratory management, and therefore reducing the numerical requirement is a reasonable adjustment. The ABPath also recognized that the COVID-19 pandemic has affected the accessibility of autopsy cases in some training programs and this adjustment will help those programs. Read more here...
Changes to the CC Program for 2021

Two changes to the Continuing Certification (CC) Program have been approved by the American Board of Medical Specialties. Beginning in 2021, the ABPath will no longer require:

- Self-Assessment Modules (SAMs) for Part II Lifelong Learning of the CC program
- Patient Safety Course

The “SAMs” requirement was developed by ABPath to ensure that at least 20 of the required 70 CME credits had a self-assessment activity. Since ACCME accreditation requires that the CME provider analyzes changes in learners (competence, performance, or patient outcomes) achieved as a result of the overall program’s activities/educational interventions, having a SAMs requirement is no longer necessary and is burdensome for diplomates and CME providers. ABPath’s CertLink® longitudinal assessment provides diplomates with self-assessment of medical knowledge as well. Diplomates will still be required to complete and report a minimum of 70 AMA PRA Category 1 CME credits for each two-year CC reporting period. Participation in Patient Safety CME will be encouraged, but no longer required.

ABPath CertLink® (ABPCL) as Official Assessment for CC
ABPath is pleased to announce that ABPath CertLink® (ABPCL) completed its pilot phase in 2020 and with approval from the American Board of Medical Specialties (ABMS) Continuing Certification Committee, is now a permanent component of the Continuing Certification (CC) program beginning in January 2021. Read the original announcement here...

ABPath Annual Report
Last year we produced our first ABPath Annual Report. The first issue focused on 2019 as a year of change, innovation and new programs for our candidates and diplomates. You can view a PDF of the 2019 report here... Look for the 2020 Annual Report in the coming months!
CME Finder is a great resource for diplomates looking for accredited CME activities. Find it here...

Continuing Certification (CC) Booklet of Information
For everything you need to know about the CC program. Download the PDF on the ABPath website here...

Continuing Certification for New Diplomates reference sheet
Download the PDF here...

Continuing Certification for New Diplomates— A short video highlighting the program requirements. Watch it here...

CME for ABPCL Participation
If you are participating in ABPath CertLink® (ABPCL), you can claim up to 5 SAM-eligible CME credits for successful participation. The credits may be claimed from February to December during the year following your participation through the American Society for Clinical Pathology (ASCP) in collaboration with the American Board of Pathology (ABPath). You do not have to be a member of ASCP to claim these credits.

Non-Time Limited Diplomates
ABPath CertLink is open to all certified diplomates of the American Board of Pathology (ABPath) to support continuous learning and professional development. There is no fee for participation and no jeopardy to life-time certification.
Resident Training During COVID-19
To address concerns that mandated quarantines or contracting coronavirus could impact their eligibility for certification, ABPath developed temporary training and autopsy policies for residents and fellows. Read more here...

ABPath Booklet of Information
The updated Booklet of Information should be reviewed by program directors, program coordinators and residents at least annually to ensure that certification requirements are met and ABPath policies and procedures are followed. Download the PDF here...

Exam Blueprints
The primary and subspecialty examination blueprints (grids) are posted on the ABPath website here... The blueprints give categories of topics covered in the examinations with the approximate percentage of questions for each topic.

ABPath Ambassador Program/Speakers Bureau
The ABPath Trustees and CEO are available to speak to pathology departments with residency training programs and national, state and local pathology societies on topics such as ABPath Updates, Certification Examinations, and Continuing Certification (CC, formerly MOC). Please contact Rebecca Johnson, MD, CEO, (rljohnson@abpath.org) if you would like to schedule a speaking engagement.
ABPath offers two Focused Practice Designations (FPD):

- Clinical Chemistry
- Clinical Microbiology

The purpose of these two designations is to recognize and provide a credential to diplomates who have successfully completed training in a Commission on Accreditation in Clinical Chemistry (ComACC) or in an American Society for Microbiology Committee on Postgraduate Education Programs (CPEP) accredited training program. These designations will also be available to recognize ABPath certified physicians whose practice has been primarily or exclusively devoted to either of these two areas. These are not new areas of certification, but rather designations. The ABPath will continue to offer subspecialty certification in Chemical Pathology and Medical Microbiology to diplomates who have completed ACGME accredited training in these specialties. Read more here...

More information can also be found on the ABMS website here...

HONOR CODE

The ABPath has an honor code statement that must be signed by applicants and registrants for ABPath certification exams. We are aware that in the past residents and fellows have used recalled and remembrance items to prepare for Board exams. The ABPath considers this practice to be cheating, unethical, and unprofessional behavior. Program Directors are encouraged to talk with their residents about the honor code, professionalism, and ethical behavior.
ABMS Delays Release of Draft Standards for CC

The American Board of Medical Specialties (ABMS) released an announcement regarding the decision to postpone the opening date of the Draft Standards for Continuing Certification – Call for Comments.

Read more here...

ABMS Draft Standards for Continuing Certification Call for Comments Delayed Until April 2021 Due to COVID-19

On December 3, 2020

The American Board of Medical Specialties (ABMS) had been prepared to release the Draft Standards for Continuing Certification – Call for Comments (Call for Comments) in early December, in accordance with the timeframes established in the Continuing Board Certification: Vision for the Future Commission’s (Commission) final report. However, the recent surge in new Coronavirus (COVID-19) cases, which has placed additional burden on the already stressed health care system, has prompted ABMS to postpone the opening of the public comment period. After consulting external and internal stakeholders, ABMS has decided to move the opening of the Call for Comments to April 2021, pending the status of the COVID-19 surge and the hospital caseload at that time.
EXAMINATION PERFORMANCE

ABPath examinations are graded using the criterion-referenced method. See the ABPath Website for examination information. The number of candidates passing the examinations does not match the number of candidates certified for several reasons:

1. Some AP/CP candidates, both first-time takers and repeaters, take only one portion (either AP or CP) of the examination. These candidates are not certified until both AP and CP are passed.
2. Certified candidates include AP/CP candidates who passed either the AP or CP examination previously and requested single certification during the reporting year.
3. Certified candidates also include candidates who passed the examinations in a previous year but did not provide documentation of licensure or other required information until the reporting year.

About the American Board of Pathology
The mission of the American Board of Pathology, as a member of the American Board of Medical Specialties, is to serve the public and advance the profession of pathology by setting certification standards and promoting lifelong competency of pathologists. Founded in 1936, the ABPath accomplishes this mission by establishing certification and continuing certification standards and assessing the qualifications of those seeking to obtain voluntary certification in the specialty of pathology.
