

Mandatory AP CC Exam Module Study Guide

Only look at the table which corresponds to the mandatory module you registered to take.

Registrants for the AP only or combined AP/Subspecialty CC exam must take one of the modules on the following pages.

CC AP Only – 50-Question Mandatory Module	
• autoimmune hepatitis	• melanoma and precursor lesions
• benign adnexal tumors; syringoma	• melanoma prognosis
• beta catenin	• new test evaluation
• breast; atypical epithelial hyperplasia	• normal probability distribution (statistics)
• breast; Bloom-Richardson grading	• nose and sinuses; benign lesions
• cervical cytology (GYN); non-neoplastic	• oral HG dysplasia
• cervical cytology (GYN); SIL	• Paget bone
• chondromyxoid fibroma	• placenta; fetal membrane abnormalities
• colorectal cancer; mismatch repair proteins	• pleural fluid; mesothelial cells
• CPT coding	• pneumonia
• DCIS	• polyarteritis nodosa
• document control	• prostate; atrophy
• DRGs	• quality control
• endometrium; malignant neoplasms	• reactive lymphadenopathies
• esophageal adenocarcinoma	• reactive soft tissue lesions simulating sarcoma
• esophagitis	• renal carcinoma variants; adult
• expense management; break even	• Resource-Based Relative Value Scale
• familial adenomatous polyposis	• salivary gland; malignant neoplasms
• Gleason grading	• salivary gland; non-neoplastic
• granulomatosis with polyangiitis	• skin; connective tissue tumors
• infectious colitides	• squamous cell carcinomas; head & neck
• liver, benign neoplasms	• testicular germ cell tumors
• low grade pulmonary lymphomas	• thyroid; papillary carcinoma
• malignant mesothelioma	• urinary bladder; benign lesions
• mastocytosis	• vulva; carcinoma
• Medicare physician payment	

Mandatory AP CC Exam Module Study Guide

Only look at the table which corresponds to the mandatory module you registered to take.

CC AP with Dermatopathology emphasis – 50-Question Mandatory Module	
• amyloidosis	• f lobular panniculitis
• angiofibroma	• malignant adnexal tumors of glandular origin
• artifacts	• medical ethics - autonomy, beneficence, justice, disease incidence, prevalence
• bacterial and rickettsial infections	• Muir-Torre syndrome
• benign eccrine tumors	• mycobacterial infections
• benign fibrous and fibrohistiocytic tumors	• normal probability distribution; statistics
• benign hair follicle tumors	• normal skin histology by location
• benign neural tumors	• papular mucinosis; scleromyxedema
• business strategy; market segmentation	• pigment and related deposits
• CLIA; retention requirements	• porphyria
• CPT coding	• protozoal infections
• cutaneous B-cell lymphomas	• quality control
• cutaneous T-cell and NK-cell lymphomas	• reactions to physical agents
• dermal fillers	• sentinel lymph node; malignant melanoma
• dermal melanocytic lesions	• skin, biopsy site histology
• dermatophytoses	• state law
• developmental cysts	• subacute lupus erythematosus
• Gardner syndrome	• superficial filamentous infections
• hair shaft abnormalities	• vascular occlusive diseases
• histiocytic lesions	• viral diseases
• interface dermatitis	• vitamin and dietary deficiencies
• Joint Commission; tissues sent to pathology	• yeast infections
• keratosis pilaris	• water intoxication
• Langerhans cell histiocytosis	

Mandatory AP CC Exam Module Study Guide

Only look at the table which corresponds to the mandatory module you registered to take.

CC AP with Forensic Pathology emphasis – 50-Question Mandatory Module	
• acute esophageal necrosis syndrome	• HIPPA; medical records and medical examiners
• air embolism	• intusseption
• alcoholic ketoacidosis	• lead poisoning
• anaphylaxis related deaths	• Lynch syndrome
• bacterial endocarditis; infectious organisms	• medication errors; potassium chloride
• bioterrorism agents; CDC classification	• meningitis; clinical associations
• bioterrorism and chemical agents; skin toxicity	• micky finn, toxicology
• blood ethanol concentration	• myxedema coma; thyroid function tests
• CAP; forensic tissue retention	• National Academy of Sciences forensic recommendations
• carbon monoxide poisoning	• neonatal meningitis
• carbon monoxide; blood gases	• neuroleptic malignant syndrome
• cavitary lesions; microbiology	• postmortem diagnosis of AIDS
• channelopathies; genetics	• prothrombin gene mutation
• channelopathies; laboratory testing	• psychogenic polydipsia
• cocaine; toxicology	• ricochet wounds
• coroner office accreditation	• spontaneous splenic rupture
• criminal abortion; complications	• synthetic designer drugs
• DNA analysis; PCR vs RFLP	• thrombotic thrombocytopenic purpura
• drugs of abuse; acceptable specimens	• thyroid storm
• eating disorders	• venom related deaths; insects and arachnids
• environmental and worker safety -OSHA	• vincristine; iatrogenic deaths
• fatty acid oxidation disorders	• viral gastroenteritis
• g-6-pd enzyme deficiency	• virus cultures; preferred specimens
• gas gangrene	• vitreous chemistries
• gastric alcohol dehydrogenase	• water intoxication
• hepatitis B	

Mandatory AP CC Exam Module Study Guide

Only look at the table which corresponds to the mandatory module you registered to take.

CC AP with Neuropathology emphasis– 50-Question Mandatory Module	
• Acute viral infections	• Inherited Cognitive Disabilities
• Alzheimer Disease	• Lacunar Infarcts
• Alzheimer Type II Astrocytes	• Lewy Body Disease Spectrum Disorders
• Amebic Encephalitis	• Lymphoma
• Anti-Hu syndrome	• Medical Coding Systems
• Axonal Degeneration/Spheroid/Reaction	• Medicare Physician Payment
• Bacterial Meningitis	• Medulloblastoma
• Cap Specimen Retention Requirements	• Meningiomas
• Chordoid Glioma Of The Third Ventricle	• Metastatic Carcinoma
• Chordoma	• Mixed Neuronal-Glial Tumors
• Circumscribed Astrocytomas	• Multiple Sclerosis
• Comparative Genomic Hybridization	• Neuroblastoma
• Cost To Detect A Positive Result Calculation	• Neurodegeneration With Brain Iron Accumulation (Hallervorden-Spatz Disease)
• Cranial and Paraspinal Nerve Tumors	• Oligodendroglial Tumors
• Cranio-Cerebral Trauma	• Pick Disease
• Diffuse Astrocytomas	• Pineal Region Tumors
• Diffuse Axonal Injury	• Pituitary Gland
• Ependymal Tumors	• Progressive Multifocal Leukoencephalopathy
• Errors In Surgical Pathology; Medical-Legal Lawsuits	• Progressive Supranuclear Palsy
• Ethical Principles Of Research	• Quality Assurance, Improvement, And Management
• Fahr Disease	• Rasmussen Encephalitis
• Fungal Infections	• Sellar Region Tumors
• Germ Cell Tumors	• Sensitivity; Specificity
• Infectious Cerebritis And Chronic Dementia	• Subependymal Germinal Plate/Matrix Hemorrhage
• Inflammatory Myopathies	• Synoptic Surgical Pathology Reports

Mandatory AP CC Exam Module Study Guide

Only look at the table which corresponds to the mandatory module you registered to take.

CC AP with Pediatric Pathology emphasis– 50-Question Mandatory Module	
• ABCA3 deficiency	• lysosomal storage diseases
• Alagille syndrome	• maternal lupus
• amebic meningoencephalitis	• meconium drug testing
• bacterial colitis	• megaloblastic anemia
• bone marrow; non-neoplastic cells	• myocarditis; infectious organisms
• celiac sprue	• neonatal exchange transfusion
• CLIA test classifications	• Nieman-Pick disease
• crescentic glomerulonephritis	• peroxosomal disorders; testing
• cystic fibrosis testing	• platelet transfusions and platelet count
• DiGeorge syndrome	• POC testing vs. central laboratory
• distal digital hypoplasia; drug exposure	• propionyl-CoA carboxylase deficiency
• EBV infection; lab tests	• real-time PCR interpretation
• enteroviral aseptic meningitis; CSF	• retinoblastoma; cytogenetics
• eosinophilic and neutrophilic dermatoses	• rheumatic heart disease
• fetomaternal hemorrhage; lab investigation	• sickle disease testing
• flow cytometry DNA analysis	• single nucleotide polymorphism microarray analysis; indications
• funisitis; causes	• Streptococcus pyogenes infections
• genomic imprinting	• surfactant metabolism disorder
• gestational trophoblastic disease; flow cytometry	• test accuracy
• glucose-6-phosphate dehydrogenase deficiency	• thrombotic microangiopathy
• hemophilia A; inheritance	• transplant rejection
• infantile eosinophilic periinsulinitis	• urea cycle disorders
• lung cysts	• viral encephalitis
• Lyme disease	• viral pneumonia
